Longwood Pediatrics – Therapist Referrals

Master List

If none of the above providers fit your/your child's needs, please call your medical insurance company for additional providers, or search on the "Find a Doctor" page on your insurance website.

A few helpful tips when contacting your insurance to find a behavioral health provider:

- A referral is not needed for behavioral health providers in Massachusetts
- Providers of psychotherapy are licensed as a Licensed Psychologist (PsyD or PhD), Licensed Independent Clinical Social Worker (LICSW), or Licensed Mental Health Counselor (LMHC)
- Psychotherapy may require frequent visits, choosing a provider closer to your home or your child's school may make the schedule more manageable
- Request providers with experience working with individuals in your/your child's age group

The type of license is less important than the therapist's experience and fit for you/your child; feel free to contact Longwood Pediatrics Behavioral Health at 617-277-7320 with any questions.
